

TECHNICAL DATA SHEET

FG-250 VFD FLOOR GRINDER

Heavy Duty Floor Preparation Machine

TECHNICAL SPECIFICATION

FEATURE	VALUE
Motor	5HP, 1Phase
Voltage	220 V
Frequency	50Hz
Weight	72kg
Speed	0-1440 rpm
Working Width	250mm
Cable	4mm 3core

DESCRIPTION

The Impacts FG-250 FVD concrete grinder is a versatile and efficient machine designed for the surface preparation of small to medium-sized concrete floors. It's perfect for surface leveling, removing coatings or adhesives, and preparing concrete before applying coatings or finishes.

Engineered for reliability and ease of use, the FG-250 is ideal for a wide range of applications,

1. Industrial flooring preparation
2. Concrete surface treatment
3. Removing surface imperfections or coating defects
4. Decorative concrete finishing.
