

TECHNICAL DATA SHEET

FLOOR GRINDER SCARIFIER MACHINE SP250

Floor Preparation Machine

TECHNICAL SPECIFICATION

FEATURE	VALUE
Power	7.5kw
Max Milling Width	250mm
Max Milling Depth	5mm
Shaft quantity	6 pcs
Blade quantity	108 pcs
Weight	110kg

DESCRIPTION

The SP-250 refers primarily to a type of heavy-duty, walk-behind concrete scarifying and grinding machine used for surface preparation, rather than a precision metalworking milling machine. It is designed for industrial and commercial floor projects. Ideal for removing epoxy, concrete grinding, pavement milling, road marking removal, and cleaning concrete, marble, or epoxy surfaces.
