# GLAZE-M Marble Crystallizer

**Description**

Surie Porex Glaze-M Marble Crystallizer Powder is a specializ used to restoration and maintenance the marble surfaces. It is designed to enhance the shine, luster and durability of marble by forming a protective crystalline layer on the surface.

**Areas of Application:**

Glaze-M powder is a crystallizer that gives a high gloss finish on calcium based stones.

**Packaging & Color**

Packaging: Available in 1kg & 5kg jars  
Color: Light Yellow

**Storage & Shelf Life**

Shelf Life: 2 years  
Storage: Keep the container tightly closed and store in a cool, dry place.

**Technical Data**

Coverage: 90-180m<sup>2</sup>/kg

**Instruction for Use**

1. Clean the surface with SURIE POLEX Floor Cleaner Neutral. The surface must be absolutely clean and dry before application.
2. Mix 1 part of Glaze-M Marble Crystallizer with 2 parts water and pour on to the floor. Massage the solution on the floor.
3. Use Surie Porex red pad to polish the floor. Fitted the pad under a single disc machine.
4. Move the single-disc machine in a circular motion, covering the entire surface area systematically. Continue buffing until the crystallizer solution begins to dry and form a thin film on the surface of the marble.
5. Spray a small quantity of water if the powder dries too fast to avoid burn marks.
6. Buff dry with a white pad to further enhance the shine.
7. Wash the floor thoroughly and vacuum dry.

**Maintenance**

- Stubborn dirt should be cleaned off with clean water or with Surie Porex floor cleaner neutral.

**Disclaimer**

The information above reflects our latest technical know-how and is the outcome of ongoing laboratory research and testing. However, some factors are beyond our control. It is essential to integrate our suggestions with your own on-site preliminary tests and check. Surie Porex accepts no liability for improper use of its products.
