

Technical Data Sheet

MOLDING SHINER

Description

It is a high-quality shiner used to renew/enhance the polish of your stone edge, molding, and skirting. Suitable for indoor and outdoor applications.

Areas of Application:

It can be used on all natural sandstones and natural high porosity stone. It is specially recommended to be used on stone edge.

Packaging & Color

Packaging: 100ml
Color: Transparent

Storage & Shelf Life

Shelf Life: 24 months in the original, sealed packaging, stored in a cool, dry place.
Storage: Keep the container tightly closed and store in a cool, dry place.

Technical Data

Coverage: depending upon the absorption coefficient of the stone.
Aspect: Liquid
Odour: Slight

Instruction for Use

1. Ensure that the surface is clean & dry. The product must be evenly applied. The presence of water, dust or dirt may influence the uniformity of the treatment.
2. When a surface is treated for the first time, we recommend testing the molding shiner on a sample or in a corner.
3. Shake well before use. After each use, make sure the can is tightly closed.
4. Shake the container well before using. Do not dilute or mix with other products.
5. We suggest spreading the product using a sponge or cloth.
6. Use the quantity that the material can absorb naturally.
7. Let the surface dry for a couple of minutes, then either polish manually with a cloth or with a machine and a white pad.

Maintenance

- Stubborn dirt should be cleaned off with clean water or with Surie Porex floor cleaner neutral.
