Color - Natural White

Instruction for Use

1. Ensure that the surface is clean & dry.
2. The presence of water, dust or dirt may influence the uniformity of the treatment.
3. Shake well before use. After each use, make sure the can is tightly closed.
4. When a surface is treated for the first time, we recommend testing the wax on a sample or in a corner.
5. The product must be evenly applied. We suggest spread the Wax Polish using a sponge or lint free cloth.
6. Use the quantity that the material can absorb naturally.
7. Let the surface dry for a couple of minutes, then either polish manually with a cloth or steel wool or with an automatic machine.

Suitable Surface
