

ULTRA LUX

Description

Transparent liquid product suitable for protecting and polishing all types of stone surfaces. Once applied it forms a thin transparent protective film which does not turn yellow over time and that makes glossy the surface. Quick drying. Particularly suitable for sanding corners, edges and all the pieces difficult to polish mechanically.

Shelf life

The products will last at least 12 months if stored in normal condition at 20°C, kept away from sun lights, humidity and sources of heat.

Safety rules

Resin and hardener are chemicals products. Please read, before any usage, the safety data sheet and the rules written on the label on the tins/drums.

Application surfaces

Sandstones, marble, granites, terrazzo and resin marble .

Instruction for Use

Spread evenly with a roller or brush on a clean, dry surface. Let it dry for 5-10 minutes after which the surface is already polished. Do not apply onto synthetic materials such as plastic, linoleum or laminate. We recommend to test the product on a small area of the surface prior to any treatment. Product ready for use, do not dilute.

Technical Data

Specific weight at 20° - 1,400,05
Ph- N.A.

Aspect- colourless liquid transparent
Hydro solubility- insoluble

Coverage

With one tin of product (750 ml) is possible to treat around 25/30 sqm of polished marbles and granites with 800 grid.

Packaging

Available in 1 Ltr.
